SUMMARY

I have a strong background in both front-end and back-end development, with expertise in modern web development frameworks such as React, Node.js, and Express. With over one year of experience in software development, I have demonstrated proficiency in designing, developing, and deploying complex web applications, as well as troubleshooting and optimizing existing code.

EXPERIENCE

Node Js Inter

[Route Academy](#)

Jan/2023-present online

During my internship with Route Academy, I gained hands-on experience in developing Node.js applications, using TypeScript, and building REST APIs with MongoDB. This opportunity allowed me to strengthen my technical skills, and I learned how to work collaboratively with a team on large-scale projects.

React Js Developer

[Dash](#)
